

SCoREBOARD

Billing Processes – H2 2025

Latvian NSG

Background

Since publication of the [Collateral Management Harmonisation Report](#) in December 2017, the Advisory Group on Market Infrastructures for Securities and Collateral (AMI-SeCo) has made a number of significant breakthroughs in its ambition to create a [Single Collateral Management Rulebook](#) for [Europe](#) (SCoRE).

What is SCoRE?

SCoRE defines common rules for managing collateral in Europe. These rules will replace the fragmented legacy standards, structural constraints and complex and diverse market practices that exist across Europe today. Implementation of SCoRE should remove operational impediments to the availability, usage and mobility of collateral. Market participants in AMI-SeCo have committed to implementing the SCoRE Rulebook, aiming for full implementation of all SCoRE standards by 16 June 2025. Their implementation efforts are regularly monitored by AMI-SeCo which facilitates an active dialogue with market participants on issues related to the clearing and settlement of securities and to collateral management.

National stakeholder groups (NSGs) are coordination forums that have been established in the markets covered by the AMI-SeCo to support the implementation of the Single Collateral Management Rulebook for Europe (SCoRE).

The Single Collateral Management Rulebook for Europe contains four Standards related to billing processes (published as the [SCoRE Standards for Billing Processes](#)). Implementation progress is monitored twice per year.

Introduction

This summary report presents the results of the H2 2025 monitoring exercise conducted by the Latvian NSG with the involvement among the following stakeholders:

- 1 CSD – Nasdaq CSD
- 7 Custodians

The H2 2025 monitoring exercise focuses on Milestones 1 to 13, as the deadline for Milestone 13 (16 June 2025) has now passed.

8 entities are monitored in the
Latvian market

Section 1 presents the key takeaways per Entity Type i.e., CSD, TPA, Custodian etc. Section 2 depicts the compliance status with the standards by each entity type. Section 3 focuses on the progress against the individual milestones and Section 4 provides concluding remarks.

1

The Latvian market is currently focusing on the analysis of the standards to be implemented

Key takeaways

Nasdaq CSD SE and one custodians responded to the survey. Responses reflected that implementation has started in numerous standards more accent is put on analysis of the standards to be implemented. Given the relatively simple and small Baltic financial market, Nasdaq CSD SE together with participants will still consider in detail the usefulness of implementation of standards in national markets.

Figure 1
Summary of the monitoring exercise

SCORE SINGLE COLLATERAL MANAGEMENT FRAMEBOOK FOR EUROPE	 Response Rate	 Implementation Status	Has milestone 13 (full implementation) been achieved by now?
Custodians	14%	Implemented 14.29% Implementation started 0% Analysis started 0% Analysis not started 0% Replies not submitted 85.71% ----- Non applicable standards 0%	% of custodians that reached the final milestone 14%
CSD - NASDAQ	Survey submitted	Fully implemented 100% Not fully implemented yet 0% ----- Non applicable standards 0%	Yes

CSD – Nasdaq CSD

Two of the Billing Processes Standards have already been implemented

So far, Standard 2: Billing cycles and Standard 3: Cut-off date have been fully implemented. Implementation is still ongoing for Standard 1: ISO 20022 messaging and Standard 4: Dates for payment fees.

Overall, Nasdaq CSD is on track for full implementation of the standards by the June 2025 deadline.

Custodians

One custodian participated to the survey

One custodian participated in the H2 2025 monitoring round. For Latvian securities market participants some standards are irrelevant, or their implementation is not financially justified. Market participants will continue to work on the analysis of standards and will implement them as far as possible.

NCB

Latvijas Banka is on track to adopt the SCoRE Standards in April 2024

For the Bank of Latvia implementation of the Standards is underway in the context of the ECMS project. The Bank of Latvia is on track to implement the SCoRE Standards for Billing Processes for its collateral management activities by April 2024.

2 Compliance level with the standards

This section provides an overview of the current status of compliance with the billing processes standards. CSDs and TPAs are monitored on an individual basis and are assigned a colour-code status in accordance with the methodology outlined in Figure 2 below¹. Custodians are too many to represent individually. Thus, the replies of custodians from the AMI-SeCo community participating in the monitoring are presented on an aggregated basis per market and assigned a percentage representing their compliance status.

Figure 2

Standards implementation status as defined in the AMI-SeCo framework document

Table 1

Compliance level with the standards by each entity type

STANDARD	Custodians	CSD - NASDAQ
1: ISO 20022 messaging	14%	B
2: Billing cycles	14%	B
3: Cut-off date		B
4: Dates for payments fees		B

Notes:

For CSDs and TPAs the colour-code reflects the current implementation status of each Standard in accordance with the methodology outlined in Box 1 above. For custodians the % indicates the percentage of custodians which have implemented the standard or have the standard under development and implementation.

Percentages are calculated on the basis of expected respondents, i.e. number of entities monitored in the market.

3

Progress towards the milestones

This section tracks market stakeholders progress in implementing the Standards against the 13 set milestones identified by AMI-SeCo.

The milestones facilitate consistent implementation across markets (given the long-term efforts that are needed) and avoids issues remaining undetected until the deadline to achieve compliance and implementation of the standards.

Table 2

The H2 2025 monitoring exercise focuses on Milestones 1 to 13, as the deadline for Milestone 13 (16 June 2025) has now passed.

In the survey round, all entities were asked to confirm (on a yes/no basis) whether the milestones would be reached by the survey closing date. If not, they were prompted to indicate the date on which they expected to reach the milestones.

Milestones that have been achieved are highlighted in blue. Milestones that will be reached later are highlighted in red, and an indication of the likely achievement date is provided. Several entities reported that they had reached the final Milestone 13, however in some cases such entities have not yet achieved full compliance with all the standards (see Section 2). Such cases are reported with a red “Yes” under Milestone 13 in Figure 1 and Table 3.

Table 3

	Custodians	CSD - NASDAQ
Milestone 1 June 2020	14%	Yes

Milestone 13 June 2025	14%	Yes

Concluding remarks

Overall, Nasdaq is on track for full implementation of the standards by the November deadline despite expected delays to several milestones (M7 to M10).

Low custodian participation during this monitoring round makes it difficult to know the full picture about their expected compliance by the June 2025 deadline.
